**Summary of Course**
This course provides practising TESOL/ESL/EFL teachers with the opportunity to gain additional classroom practice in this specialist field. The course comprises 25 days of advanced professional practice, including high-level teaching, observation and critical reflection in an intensive TESOL setting. This professional practice course is usually undertaken in conjunction with the completion of the co-requisite courses Advanced TESOL Methodology and Advanced TESOL Curriculum Design and Assessment.

**Aims of the Course**
The overall aims of the course are to provide appropriate supervised advanced professional practice in a TESOL teaching environment.

**Important Information**
Overview of Professional Practice Observation, Teaching and other duties:

**Stream A:**
For candidates seeking accreditation to teach in NEAS-accredited Institutions: a 25-day placement in a relevant TESOL institution: 1/3 teacher fronted; 1/3 structured observation; 1/3 participation in other program activities. To qualify for Stream A, candidates need to have a 7.5 IELTS score, no less than 7.0 in R & W with 8.0 for Speaking and Listening and relevant pre-service teaching qualifications for the sector in which they are specialising.

**Stream B:**
For candidates wishing to teach elsewhere and wishing to carry out structured observation of TESOL teaching and TESOL classroom experience: 10-day placement in relevant TESOL institution: 1/3 assistance; 1/3 structured observation; 1/3 participation in other program activities.
**Attendance:** Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, failure to attend 80% of classes in a course may result in failure.

4. **RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH**

School-based work is a critical component of effective teacher education, not only providing an essential forum for generating concrete problems and issues and applying new knowledge and skills, but also enabling the development of an integral link between theory and practice.
5. TEACHING STRATEGIES

Students learn best when they are engaged and given an appropriate level of challenge; when their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers. Thus, teaching strategies used during the course will include:

- Weekly, face-to-face contact sessions.
- Small group cooperative learning to demonstrate the use of group structures to address teaching and learning goals;
- Structured occasions for students to reflect critically on and improve teaching practice;
- Plenary discussions around core methodological issues and debates
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings and other useful web links.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

### Lenses for observation

**Borich, G.** (2008). Observation skills for effective teaching. Ch. 2

**Wajnryb, R.** (1993). Classroom observation tasks

#### Activity 1

Choose three of Borich’s eight personal goals for observation discussed during the workshop, and explain why you believe these goals are important for your development as a teacher.

#### Activity 2

While you are observing in a classroom, identify a student or teacher behaviour that provides an example of each of the 8 professional frames of observation (learning climate, classroom management, lesson clarity, instructional variety, teacher’s task orientation, student engagement in the learning process, student success, and higher thought processes and performance outcomes)

### Classroom Management

Strategies for program participation and enhancement of teaching

**Readings:**

#### Activity 1

Describe ways you/the classroom teacher creates a positive classroom climate. Include:

- Classroom rules
- Strategies to manage group work
- Timing and pacing (maintaining momentum)
- Creating a culturally sensitive classroom

#### Activity 2

Record/journal segment of lesson which shows problematic aspects of your practice
### Effective Lesson Planning

- Format of a lesson plan
- Guidelines for lesson planning
- Sample lesson plans
- Developing learner-centred teaching

**Readings:**

### Activity 1

Look at the sample lesson plan provided, and use Brown’s (2007) seven guidelines for lesson planning to assess the plan. What changes do you think should be made? Share your conclusions with the rest of the class.

### Activity 2

Start developing Professional Practice portfolio including detailed lesson plans.

8. ASSESSMENT

Assessment tasks are designed to provide evidence of advanced professional practice and the ability to work in an assistant/independent capacity in the TESOL classroom and TESOL context more generally.

**Assessment Details**

**Assessment 1: Observing professional practice and using lenses for observation**

You are required to observe two lessons of a qualified and experienced TESOL teacher in a TESOL setting. The aim of this exercise is for you to become aware of classroom behaviour using Borich’s lens with the intention of self-improvement, i.e. What does this teacher do that makes them an advanced practitioner? What can I learn or adopt from his/her approaches to teaching and learning in the TESOL classroom?

You will be required to record the behavioural practices and processes in a form that can be retrieved and studied to assist in your own self-improvement. You can use any of the methods included in the Borich readings, including narrative reports, rating scales and a classroom coding system. Be sure to include data from at least two of these methods in your report. After collecting your data, describe how your observations and reflections can help to shape your own practice.

Consider:
1. What is influencing the quality and nature of events in the classrooms that you are observing?
2. What new instructional strategies, practices, approaches, educational ideas, solutions can help you to become a more effective language teacher?
3. What are your personal strengths and challenges as a novice TESOL teacher?
4. What areas of teacher effectiveness do I plan to work on?
5. Other ideas?
Assessment 2: A reflective journal

You are required to write a reflective journal linked with evidence of practice. It consists of two parts.

Part A
A narrative reflective journal outlining your developing practice as a novice TESOL teacher. Include links to the literature (Scrivener, Richards and so on).

Part B
Includes evidence to support your development as a TESOL teacher, referred to in your journal. The evidence should “showcase” you working towards achieving the assessment standards of this course.

Appendix
Include a professional practice log summarizing teaching, observation and other duties completed over the semester, showing that you are working towards the 25 days. Please attach as an appendix.

Possible examples of evidence:
An original unit of work consisting of 4/5 lesson plans, student task sheets, teaching resources and samples of student work

**GENERAL COMMENTS**

Lecturer        Date
Recommended:     /20  (FL  PS  CR  DN  HD)  Weighting:  40%

NB: The ticks in the various boxes are designed to provide feedback to students; they are not given equal weight in determining the recommended grade. Depending on the nature of the assessment task, lecturers may also contextualize and/or amend these specific criteria. The recommended grade is tentative only, subject to standardisation processes and approval by the School of Education Learning and Teaching Committee.
## SPECIFIC CRITERIA

### Understanding of the question or issue and the key concepts involved
- Demonstrate ability to crucially evaluate own teaching practices
- Evidence shows ability to monitor, document and report on a range of student’s development
- Evidence includes examples of range of teaching strategies responsive to learning strengths and needs of students, program/lesson design and delivery, differentiation, assessment, review, student feedback and evaluation
- Evidence illustrates the use of personal reviews and feedback to inform planning/teaching

### Depth of analysis and/or critique in response to the task
- A detailed narrative linked to standards and evidence
- Narrative incorporates relevant literature including course readings

### Familiarity with and relevance of professional and/or research literature used to support response
- A range of research and professional literature to support response

### Structure and organization of response
- Clearly set out – concise and easy to navigate
- Clearly divided into the 2 parts
- Part 1 is linked to part 2 and incorporates relevant literature
- All evidence is clearly annotated
- Appropriate appendixes are included

### Presentation of response according to appropriate academic and linguistic conventions
- Writing adheres to standard conventions including (1) grammar, (2) punctuation, (3) spelling, and (4) capitalisation
- Writing is precise, clear and persuasive including (1) correct sentence structure, (2) appropriate paragraph structure and (3) pith
- If included, tables and graphs, units of work, samples of student work, etc. are clear
- Clarity, consistency and appropriateness of conventions for quoting, paraphrasing, attributing sources of information, and listing references
