4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

School-based work is a critical component of effective TESOL/ESL/EFL teacher education, not only providing an essential forum for generating concrete problems and issues and applying new knowledge and skills, but also enabling the development of an integral link between theory and practice. This course provides TESOL/ESL/EFL teachers with the opportunity to gain additional classroom practice in this specialist field at proficiency level.

TEACHING STRATEGIES

Students learn best when they are engaged and given an appropriate level of challenge; when their prior experience and knowledge is valued and built upon; when they are expected to take responsibility for their own learning; and when they work collaboratively with their peers.

Thus, teaching strategies used during the course will include:

- Weekly, face-to-face contact sessions.
- Small group cooperative learning to demonstrate the use of group structures to address teaching and learning goals;
- Structured occasions for students to reflect critically on and improve teaching practice;
- Plenary discussions around core methodological issues and debates
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings and other useful web links.

These activities will occur in a classroom climate that is supportive and inclusive of all learners.

7. ASSESSMENT

Assessment tasks are designed to provide evidence of advanced professional practice and the ability to work in an assistant/independent capacity in the TESOL classroom and TESOL context more generally.

Assessment Task	Length	Weight	Learning Outcomes Assessed	Graduate Attributes Assessed	Due Date
Assessment 1: Professional practice An observation of a qualified TESOL teacher using Borich (2008) lens for self-improvement.	Approx. 2400 words	40%	1,2,3,4	1,3, 4	26 August 2016 5:00 PM
Assessment 2: Reflective journal Complete a narrative reflective journal outlining your developing practice as a novice teacher. Attach evidence of your development in the form of a detailed unit of work, comprehensive lesson plans, sample student worksheets	3000 words	60%	1,2,3,4	1-5	17 October 2016 5:00 PM

Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Student no longer need to use a cover sheet. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.

Assessment 1: Observing professional practice and using lenses for observation

You are required to observe two lessons of a qualified and experienced TESOL teacher in a TESOL setting. The aim of this exercise is for you to become aware of classroom behaviour using Borich's lens with the intension of self-improvement, i.e. What does this teacher do that makes them an advanced practitioner? What can I learn or adopt from his/her approaches to teaching and learning in the TESOL classroom?

You will be required to record the behavioural practices and processes in a form that can be retrieved and studied to assist in your own self-improvement. You can use any of the methods included in the Borich readings, including narrative reports, rating scales and a classroom coding system. Be sure to include data from at least two of these methods in your report. After collecting your data, describe how your observations and reflections can help to shape your own practice.

Consider:

1. What is influencing the quality and nature of events in the classrooms that you are observing?
2. What new instructional strategies, practices, approaches, educational ideas, solutions can help you to become a more effective language teacher?
3. What are your personal strengths and challenges as a novice TESOL teacher?
4. What areas of teacher effectiveness do I plan to work on?
5. Other ideas?

Assessment 2 : A reflective journal

You are required to write a reflective journal linked with evidence of practice. It consists of two parts.

Part A

A narrative reflective journal outlining your developing practice as a novice TESOL teacher. Include links to the literature (Scrivener, Richards and so on).

Part B

Includes evidence to support your development as a TESOL teacher, referred to in your journal. The evidence should “showcase” you working towards achieving the assessment standards of this course.

Appendix

Include a professional practice log summarizing teaching, observation and other duties completed over the semester, showing that you are working towards the 25 days. Please attach as an appendix.

Possible examples of evidence:

An original unit of work consisting of 4/5 lesson plans, student task sheets, teaching resources and samples of student work
