Course Name	Society and Culture Method 1
Credit Points	6 units of credit (uoc)
Workload	Includes 150 hours including class contact hours, readings, class preparation, assessment, follow up activities, etc.
Schedule	
Lecture	Thu 13 (w1-4,5-10,N4, AGSM LG06)
Tutorial	Thu 14-16 (w1-4,5-10,N4, AGSM LG06)

Summary of Course

This course is designed to increase a student's pedagogical content knowledge for Society and Culture teaching. The key elements of pedagogy and Society and Culture content knowledge are examined and developed. Students will critically address how these elements can then be combined into effective classroom practice for addressing the requirements and philosophy of the NSW Society and Culture syllabus.

Aims of the Course

This course aims to:

- To a student's pedagogical content knowledge for Society and Culture teaching
- To develop a student's understanding of what comprises effective classroom practice

The main way in which the course has changed since last time as a result of student feedback:

Inclusion of tutorial material on specific ICT strategies for the classroom which will be linked to the lesson planning lecture.

Assessment: Please note that all students must pass all assignments to pass the course, and they must pass the course to go on placement for PE 1.

Attendance: Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, attendance at less than 80% of classes in a course may result in failure.

Student Learning Outcomes

Outcome	Assessment/s	
1	Demonstrate knowledge and understanding of the NSW Board of Studies Society and Culture Syllabus for stage 6 and various Department of Education policies, particularly those relating to ICT, Literacy, Aboriginal Education and Cultural Diversity	1, 2
2	Plan and implement coherent, goal oriented lessons and lesson sequences that are designed to engage all students and address learning outcomes	1, 2
3	Demonstrate the essential link between outcomes, assessment, teaching strategies and lesson planning	1,2
4	Demonstrate knowledge and understanding of learning outcomes and classroom practice related to teaching ICT	2
5	Use the internet and web-based Learning Management Systems to deliver curriculum to students	2
6	Plan for and implement a range of literacy strategies to meet the needs of all students	1,2
7	Discuss classroom strategies that recognize students' different approaches to learning	1,2
8	Analyse specific strategies for teaching Aboriginal and Torres Strait Islander students, students with Special Education Needs, Non-English Speaking Background students, Students with Challenging Behaviours	2
9	Develop appropriate and engaging resources for the Society and Culture classroom that take into account students' skills, interests and prior achievements and that respect the social, ethnic and religious backgrounds of students	1,2
10	Investigate and discuss a variety of strategies to develop rapport with students, a positive classroom learning environment and approaches to managing student behaviour	1,2
11	Recognise a range of professional organizations that can contribute to the on-going professional development of Society and Culture teachers	
12	Investigate the AITSL Professional Graduate Teaching Standards

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

This subject aims to develop in each student the ability to effectively teach Society and Culture to secondary school students with an emphasis on the NSW Society and Culture curriculum. During the course students will develop their knowledge of New South Wales syllabus documents. Lectures, tutorials and assignments will cover a variety of approaches to teaching and learning in the Society and Culture classroom. Emphasis will be given to the relationship between Society and Culture, literacy and numeracy and the role and value of Society and Culture in the curriculum and the community.

Student-centred activities will form the basis of the course. These activities will draw on the prior knowledge of the students and will allow them to engage in relevant and challenging experiences that mirror those they will be expected to design for the secondary students they will later teach.

5. TEACHING STRATEGIES

- Explicit teaching, including lectures, to demonstrate an understanding of students' different approaches to learning and the use of a range of teaching strategies to foster interest and support learning
- Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals
- Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings on Moodle
- Online discussions
- Peer teaching in a simulated classroom setting
- These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Submission of Assessment Tasks

Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Student no longer need to use a cover sheet. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.

Assessment Details

Tasks 1 a and b details

You are to design a detailed 60 minute lesson plan for a stage 6 Society and Culture Class. You will use part of this lesson (a part which includes a literacy/numeracy focus) for your micro teaching presentation (see below).

Your plan should include any prior knowledge the students would need to enable them to achieve the outcomes for that lesson. Relevant syllabus outcomes and content statements for the lesson must be written out in full. Include with your detailed plan any handouts you would be providing to the students. *(The lesson plan is a standard format that will be explained and investigated during tutorials. You will receive a template for the lesson outline).*

Write a lesson rationale in which you **refer to readings** that you have studied during the course and that are relevant to your lesson and from **any other research articles which justify the teaching and learning activities you have chosen to deliver in your microteaching presentation. Your reading and research should be correctly referenced.**

Include in your rationale a description of the backgrounds, needs and abilities of the students to be taught. You should also comment on how the material chosen for the lesson would complement classroom management strategies.

You may submit an electronic copy of this assignment through email by the due date. Tasks are due by **5pm** on the day of the lecture/tutorial.

Microteaching presentation

Students should choose a 15-20 minute segment from the 60 minute lesson plan to present to their peer group.

At some stage in your microteaching lesson, and in its subsequent presentation, **you must demonstrate the use of a literacy or numeracy strategy**, relevant to the subject content and the needs and abilities of the students you have identified in your rationale.

Evaluation of microteaching

You must also provide a brief written evaluation of your microteaching **in the week after you have presented your lesson**. It should provide reflection on what you thought were the strengths and weaknesses of your presentation and what you have learned for future teaching. This is not a formal piece of writing, and the emphasis should be on reflection. It should be submitted in class the week following your microteaching presentation, or emailed during that week.

Task 1c details

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a mini-lesson). It is an essential competency that must be reached before student teachers are permitted to start their Teaching Experience in Semester 2. Microteaching is an important component of Society and Culture Method.

It is recommended that students complete further reading on effective classroom strategies and practice presentations with a small group of peers prior to assessment. An important aspect of microteaching is observing other student teachers and engaging in peer review.

Microteaching will be assessed against the AITSL Professional Graduate Teaching Standards (see above) and will be graded as Satisfactory or Unsatisfactory.

Any student whose first microteaching episode is judged as **unsatisfactory** will be given a further (one only) opportunity to gain a satisfactory grade. If a student is assessed as unsatisfactory in microteaching s/he will automatically fail method overall.

The Lesson Presentation

You are to deliver your planned lesson to your peers, who will act as students.

To be graded as satisfactory, students must satisfy ALL three of the following categories during the presentation: *Professional Knowledge; Professional Practice; Professional Commitment*

Task 2 Details

Present an outline of **the first eight lessons** of a unit of work that has, as its focus, a concept or topic suitable for a stage 6 Society and Culture class in a comprehensive high school. The unit of work **must accommodate** as much as possible **the learning needs of the class described below**.

“This class is a mixed ability, co-educational group of students in a comprehensive public high school.

One third of the class is from a non-English speaking background and many of these students could be classified as being second phase ESL learners. There are several Indigenous Australian students in the class and students from the Pacific Islands, as well as students from a variety of English speaking backgrounds. Many of these students are very capable learners.

A diverse range of religious and cultural groups are represented in this class. A small number of students in the class demonstrate challenging behaviours. Two students have special education needs”

You must write a rationale for the unit (about 1,000 words) in which you:

- state precisely what you want the students to learn and why it is important
- justify your choice of resources designed to suit the needs and abilities of this class, and supplement classroom management strategies for this particular class
- justify your choice of strategies by reference to readings, research and material presented in lectures
- demonstrate how you would provide for diverse learning approaches and abilities
- detail the prior knowledge students must have to begin this unit and discuss how you would assess this prior knowledge

You must present **an outline of eight, sixty minute, consecutive lessons in this unit**. (*The unit of work is a standard format that will be explained and investigated during tutorials. You will receive a template for the unit of work*).

For **ONE lesson** in the sequence, you need to base the content and learning strategies on the creative use of **ICT** and explain in detail how the lesson would work.

For **ONE lesson** in the sequence (other than an ICT lesson), base the content and learning strategies on **literacy or numeracy strategies** and explain in detail how the lesson would work.

On a separate page, you must include an outline of **formative assessments, and ONE summative assessment task** for your unit. (Remember that the summative assessment should reflect your learning goals for the WHOLE unit.) Explain how the summative assessment can also be used for formative purposes.

(The unit outline is a standard format that will be explained and investigated during lectures and tutorials. You will receive a template for the unit outline.)

You should discuss your plans for this assignment with your tutor during Semester 1.

YOU DO NOT HAVE TO SUBMIT DETAILED LESSON PLANS FOR THIS ASSIGNMENT. You have to submit **an outline only** of the 8 lessons in the unit, but include **specific detail on the ICT and literacy lessons**.

You should include a reference list of resources consulted that will reflect not only the unit of work, but also the professional reading you have done to support your pedagogical approach.

You may submit an electronic copy of this assignment through email by the due date. Tasks are due by **5pm** on the day of the lecture/tutorial.

HURDLE REQUIREMENT

MICROTEACHING

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a 10 minute mini-lesson). It is a critical aspect of method as it provides students with the opportunity to demonstrate key competencies that must be achieved before student teachers are permitted to undertake Professional Experience 1, at the same time observing other student teachers and engaging in peer review. It is recommended that students read widely on effective classroom strategies and practise aspects of their mini-lesson with a small group of peers prior to assessment.

The assessment process will consist of the following two components:

1. A detailed **lesson plan using the prescribed template**, including a statement of expected learning outcomes
2. A 10 minute mini-lesson

Initial Lesson Plan: All students must submit to the method lecturer their proposed lesson plan at least one week prior to the presentation. This will be returned with comments on the suitability of the proposal.

Microteaching: This will be assessed according to the attached criteria, and will be graded as **Satisfactory or Unsatisfactory**. Any student whose first microteaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.

NOTE: If a student is assessed as unsatisfactory in microteaching s/he will automatically fail Method 1 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.

Creating a Contemporary Classroom - Hands on with Digital Technologies

Active participation in 2 x 1.5 hour sessions taken by a specialist in technology enabled learning and teaching to help prepare student teachers to understand and use digital technologies in their contemporary classrooms, and assessed by Method lecturers.

These technologies will include:

Session 1

- Presentation tools and classroom equipment including interactive whiteboards;
- Online sites, tools and communities including blogs, wikis, iTunesU, icourses etc;

Session 2

- Web based enquiry learning resources, including webquests;
- One– to-one technologies including ipads, netbooks and notebooks and the technologies which support shared learning on individual devices; and
- Resources to create contemporary lessons see: [Flipped classroom](#)

At the end of their lesson the pre-service teachers were invited to reflect on the experience of working with the resource package and adapting it to their class situation. They were also asked to reflect on their understanding of TPACK. Student teachers are encouraged to set up their own blog (It is free) at Edublog , <http://edublogs.org/> to create and share resources and lessons they create.
