## 3. COURSE DETAILS

<b>Course Name</b>	Evaluation of Educational Programs	
<b>Credit Points</b>	6 units of credit (6 uoc)	
<b>Workload</b>	Includes 150 hours including class contact hours, readings, class preparation, assessment, follow up activities, etc.	
<b>Schedule</b>		
Lecture	03, 04, 05, 06 October 9:00-16:00	John Goodsell 119

### **Summary of Course**

In this course, you will learn to evaluate educational programs, becoming informed consumers of and contributors to what works in education. The course will focus on evaluation theory and practice. It draws from the full range of literature on evaluation, but focuses on the literature and cases in educational evaluation contexts. The course will develop and stimulate student critical thinking about educational evaluation using a blend of traditional face-to-face lectures and practical seminar activities. These will help students understand and develop their own views on the appropriate use of theories and application of educational evaluation. Group discussion, problem-based activities and case studies are designed to allow the application of evaluation strategies to aid in the realisation of an evaluation plan for students' choice of educational program.

*The main ways in which the course has changed since last time as a result of student feedback:*

- This is the first time the course is being offered in the current format. MyExperience surveys will be an invaluable part of ongoing course improvement for future semesters.

### **Student Learning Outcomes**

<b>Outcome</b>		<b>Assessment/s</b>
1	Describe the fundamentals of evaluation.	1, 2 and 3
2	Identify, analyse and appraise different approaches to evaluation.	2 and 3
3	Describe the steps in the execution of a program evaluation.	1, 2 and 3
4	Apply knowledge of evaluation practices to a program evaluation plan in an educational organisation.	1, 2 and 3
5	Describe and discuss the issues in evaluation practice	2 and 3

### **Program Learning Outcomes**

<b>Standard</b>		<b>Assessment/s</b>
1	<b>Advanced disciplinary knowledge and practices</b> Demonstrate an advanced understanding of the field of education as it relates to their specialist area of study, and the ability to synthesize and apply disciplinary principles and practices to new or complex environments.	1 and 3
2	<b>Enquiry-based learning</b> Demonstrate an in-depth understanding of research-based learning and the ability to plan, analyse, present implement and evaluate complex activities that contribute to advanced professional practice and/or intellectual scholarship in education.	1 and 3
3	<b>Cognitive skills and critical thinking</b> Demonstrate advanced critical thinking and problem solving skills	3
4	<b>Communication, adaptive and interactional skills</b> Communicate effectively to a range of audiences, and be capable of independent and collaborative enquiry and team-based leadership	2

### **AITSL Professional Teaching Standards (Proficient, Highly Accomplished, Lead)**

<b>Standard</b>	<b>Assessment/s</b>

5.4.3	2, 3
5.4.4	
5.5.2	
5.5.3	2, 3
5.5.4	

#### **4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH**

This course will enable students to develop an understanding of evaluation that will enhance their practice as leaders of education organisations. It reflects a view that an understanding of evaluation theory offers a coherent set of conceptual, hypothetical, pragmatic and ethical principles to guide the study and practice of educational evaluation.

## 5. TEACHING STRATEGIES

The course will develop and stimulate student critical thinking using a blend of traditional face-to-face lectures and practical seminar activities. These will help students understand and develop their own views on the appropriate use of theories and application of educational evaluation.

Group discussion, problem-based activities and case studies are designed to allow the application of evaluation strategies to aid in the realisation of an evaluation plan for students' choice of educational program.

## 8. ASSESSMENT

Assessment Task	Length	Weight	Student Learning Outcomes Assessed	Program Learning Outcomes Assessed	Due Date
Pre-assessment Annotated Bibliography	1,200 words	20%	1, 2, 3, 4	1, 2	30/08/2017
Evaluation Planning Document	1,600 words	30%	1, 2, 3, 4	1, 2	13/10/2017
Final Evaluation Plan	3,000 words	50%	1, 2, 3, 4, 5	1, 2	3/11/2017

*Students are required to follow their lecturer's instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm.*

*Students no longer need to use a cover sheet. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.*

### Assessment Details

Pre-assessment Annotated Bibliography: Select 5 program evaluations that you consider to be high quality and provide annotations for each of them. The evaluations need not show positive results, but you should be able to defend the evaluations as methodologically and conceptually robust. These can be drawn from peer-reviewed publications, government reports, foundation reports, or other sources.

Evaluation Planning Document: The assessment is in two parts. The purpose of the first part is to provide basic information about the program to be evaluated: the rationale and context that constrains or enables its performance; and a description of the program as it really is using a logic model. The purpose of part 2 of this task is to identify the purpose of the evaluation, those involved, the key evaluation questions and the criteria you will use to determine program success.

Final Evaluation Plan: This assessment builds on the evaluation planning document. In it, you will provide the following: Program background, Purpose, Questions and Criteria, Design, Information and Sources, Measurement and Data Collection Methods.

Detailed information on each of these assessments can be found on the EDST5436 Moodle site.
