## 4. SUMMARY OF COURSE

This course focuses on major recent approaches to understanding the nature and practice of educational leadership. Grounded in the latest research findings, the course offers both a critical perspective on the literature and an account of leadership that is sensitive to the demands of the various contexts of practice.

A strong focus of the course is on practical applications of ideas about leadership with the expectation that members of the class will share their own ideas about leadership

### **THE MAIN WAYS IN WHICH THE COURSE HAS CHANGED SINCE LAST TIME AS A RESULT OF STUDENT FEEDBACK:**

- Based on student feedback from Experience surveys the course has been changed to have a better and clearer structure of readings and division between required and additional readings for each topic.

## 5. IMPORTANT INFORMATION

**Assessment:** Students must pass ALL assessments to pass the course. Only by passing all assessments can the AITSL Professional Graduate Teaching Standards be achieved.

**Attendance:** It is expected that any student enrolled in an EDST course with the School of Education will make a commitment to their learning and attend all classes in full where content is delivered in a face-to-face mode except in certain circumstances where absence is due to illness, misadventure or unforeseen circumstances beyond the student's control. A minimum attendance requirement of 80% is required for each course. In certain circumstances, a student may miss up to 20% of a course without formal documentation and up to 33% of a course with formal documentation (sent via email to course convenor) providing all the requirements detailed below are met. Students not meeting the attendance requirements outlined above will be awarded an Unsatisfactory Fail (UF) for that course regardless of their performance in the assessment tasks or other requirements for the course.

**Please note the following attendance expectations, requirements, and consequences:**

- A minimum attendance requirement of 80% of all scheduled classes (i.1. lectures, tutorials, workshops, seminars) for the subject in which you are enrolled is required by UNSW
- Attendance in person is the only option for tutorials, seminars, and workshops.
- Where attendance is recorded for a scheduled class (i.e. lectures, tutorials, workshops, seminars) either by electronic means or via an attendance register it is the responsibility of the student to make sure they successfully record their attendance by providing all the details required.

It is the responsibility of the student to catch up on any learning missed due to absences.

The School of Education upholds the UNSW attendance policy and is in accordance with the Arts and Social Sciences guidelines and expectations. UNSW policy on Attendance and Absence that can be found at: <https://www.arts.unsw.edu.au/current-students/academic-information/Protocols-Guidelines/#attendanceguidelines>

## **6. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH**

Ideas about leadership have tended to develop in a dynamic and progressive way as earlier proposals have been researched, debated, improved upon or replaced. The structure and content of the course seeks to reflect this critical intellectual dynamic, with students being able to see where ideas came from and what led to their replacement. The teaching approach is therefore one of critical engagement with the research literature and the current research of staff teaching the course. The approach to teaching and learning is informed by research. This research has demonstrated the importance of the learning environment for quality student learning. Therefore, emphasis is placed on a learning environment which is student-centred, knowledge-centred, assessment-centred and community-centred.

## **7. TEACHING STRATEGIES**

In general, there has been a shift in leadership theorising, from an earlier period that saw leaders as possessing certain essential properties, to more recent thinking that sees leadership tasks and practices as being heavily influenced by context. The main teaching strategy is therefore to encourage students to use the evidence of their own contexts of practice as a tool for evaluating approaches to leadership in a critical way.

The course will use explicit instruction designed to stimulate student thinking because there are a number of theories which must be understood, and group discussion, activities and case studies designed to increase the capacity and capability of students for developing their own theories of leadership.

## 9. RESOURCES

A reading guide and readings for each week is provided on Moodle, which can be accessed by signing into myunsw. Students are expected use the weekly reading guide and to have read required readings before attending class each week.

You are also encouraged to access other relevant resources from UNSW library *website*: <http://www.library.unsw.edu.au>.

Although the course covers a range of the most central published positions in educational leadership, this is a research-driven course also in the sense that the content of the course falls under the influence of the most recent research being conducted by the staff who teach the course.
