### **IMPORTANT :**

For student policies and procedures relating to assessment, attendance and student support, please see website, <https://education.arts.unsw.edu.au/students/courses/course-outlines/>

**The School of Education acknowledges the Bedegal and Gadigal people as the traditional custodians of the lands upon which we learn and teach.**

## 1. LOCATION

Faculty of Arts and Social Sciences  
School of Education  
EDST 5888 Project (6 units of credit)  
Semester 2, 2017

Course Coordinator: Prof Chris Davison  
Office Location: John Goodsell, Room 125  
Email: [c.davison@unsw.edu.au](mailto:c.davison@unsw.edu.au)  
Phone: +61 2 9385 1987  
Availability: Email for consultation times

Classes: All briefing sessions held in G119, Level 1, Goodsell Building, unless notified otherwise.

## 2. COURSE DETAILS

<b>Course Name</b>	Project
<b>Credit Points</b>	6 units of credit (uoc)
<b>Workload</b>	Includes 150 hours including class contact hours, readings, class preparation, assessment, follow up activities, etc.
<b>Schedule</b>	A supervising lecturer will be appointed for each student by the course coordinator at the beginning of each semester for all those enrolled in the course

### Pre-requisites

In order to enrol in this course, you must have completed 4 courses (24 UOC) in an Master's level or equivalent coursework degree, AND have completed or be completing a 6 UOC approved research methods course or the equivalent from the School of Education.

### Summary of Course

The purpose of this course is to provide students with an opportunity to build on or extend interests developed in their specialist area of education by undertaking a self-directed small-scale individual capstone project, supported by a supervising lecturer, in small groups with other students from the same specialisation. The project must clearly represent 6 units of credit and demonstrate that the students is able to synthesize and apply the knowledge and skills they have developed in the other components of their specialisation to address a particular problem or issue in their own workplace or teaching context.

### Examples of appropriate projects:

- the evaluation of a specific aspect of an educational program or set of teaching materials
- development, trialling and evaluation of a specific methodological approach, materials or curriculum unit over a semester
- development, piloting and evaluation of a specific technique or approach for data collection and/or analysis for a future research project
- a small-scale action research project exploring a particular strategy, classroom pedagogy, technique, or professional learning programme in your own classroom or school
- a proposal for a particular innovation or change in your workplace
- a case study of a learner or specific context for learning or teaching
- a theoretical critique of a specific direction or initiative in education policy or practice
- a meta-analysis or meta-synthesis of other research studies
- any other project which meets the requirements of postgraduate level work, i.e. it must be intellectually demanding and require reading of the research and professional literature

Note if you are employed by the DoE and are enrolled in a Master by Coursework program which has an education focus, e.g. Master of Education, or Master of Educational Leadership, you can undertake a trial or evaluation of educational resources or programs in your own school provided the study is confined to your school only and the results are not intended for scholarly publication, i.e. the project “involves researching current instructional strategies; or researching the effectiveness of instructional techniques, curricula, or classroom management, in established educational settings, involving normal educational practices, in accordance with a host institution’s normal practices and approvals”.

International students or students who are not currently employed in NSW cannot go into a school to do any project work for this course, so are more constrained in what they can do, i.e. the development and /or evaluation of teaching materials or courses, discourse analysis of government policies, a theoretical piece of research, a proposal to introduce a new approach or methodology into their own context, etc

**Important:**

**Students enrolled in or interested in enrolling in a research higher degree who want to undertake and publish the result of an empirical research project involving human participants will be required to obtain Human Research Ethics approval from UNSW HREA Panel B. Anyone contemplating this kind of project should consult with the EDST 5888 course coordinator as early as possible in their program to confirm the scope and focus of their project and to identify an appropriate supervisor as this kind of project will take more time and be more complicated in its design and implementation. Note you cannot progress to a higher degree unless you have achieved a minimum WAM of 75+ in your Master’s coursework program, including a substantial research component.**

**Student Learning Outcomes**

Outcome	Assessment/s
1 Demonstrate in depth knowledge and understanding of a topic of interest related to education.	1,2
2 Demonstrate knowledge and ability to locate the full range of references appropriate to their topic of interest related to education and to evaluate the quality of these references.	1, 2
3 Demonstrate knowledge and understanding of the appropriate methodology to undertake the project.	2
4 Demonstrate ability to analyse and interpret data and build a report of the project in which findings are identified and discussed.	2

**Program Learning Outcomes**

Capability	Assessment/s
<b>Advanced disciplinary knowledge and practices</b>	
1 Demonstrate an advanced understanding of the field of education as it relates to their specialist area of study, and the ability to synthesize and apply disciplinary principles and practices to new or complex environments.	1, 2
<b>Research-based learning</b>	
2 Demonstrate an in-depth understanding of research-based learning and the ability to plan, analyse, present implement and evaluate complex activities that contribute to advanced professional practice and/or intellectual scholarship in education.	1, 2
<b>Cognitive skills and critical thinking</b>	
3 Demonstrate advanced critical thinking and problem solving skills	1, 2
<b>Communication, adaptive and interactional skills</b>	
4	1, 2

	Communicate effectively to a range of audiences, and be capable of independent and collaborative enquiry and team-based leadership	
	<b>International outlook</b>	
5	Demonstrate an understanding of international perspectives relevant to the educational field	2
	<b>Ethical and responsible professional practice</b>	
6	Demonstrate an advanced capacity to recognise and negotiate the complex and often contested values and ethical practices that underlie education	1, 2

*The main ways in which the course has changed since last time as a result of student feedback:*

Students have been allocated much earlier to supervising lecturers and an informational video was prepared to provide more consistent and timely information to prospective and current students about the course structure and content. Whole group meetings have been made optional to provide more student flexibility especially for those studying off-campus.

### 3. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

This course is being offered to provide students with an opportunity to undertake a small-scale capstone project in a specific area of their specialisation in education. The course will also enable students to develop a deeper reflective approach to education and demonstrate the ability to analyse, evaluate, synthesise and apply knowledge and skills from earlier stages of their program.

### 4. TEACHING STRATEGIES

EDST5888 is a self-directed course, however, there will be optional group meetings at the beginning (Week 1 ) and towards the end (Week 10) of the semester organised by supervising lecturer. These meetings will cover general issues in conducting small-scale projects in your area of specialisation, as well as the preparation required (eg. developing a project proposal and a clear feasible plan for implementation). The initial session is designed to stimulate student thinking because there are a number of issues that students will need to address so that a feasible project can developed. In the follow up meeting individual/group discussions and peer mentorship/support will be utilised to increase the capacity and capability of students for conducting small-scale projects. These activities will occur in a climate that is supportive and inclusive of all learners.

## 5. COURSE CONTENT AND STRUCTURE

Week	Activity
<b>Optional pre-semester briefing 30 May 2017, 5-5.30pm, G124</b>	Attend course briefing in the preceding semester and/or look at informational video on Moodle. Email the course coordinator, <a href="mailto:c.davison@unsw.edu.au">c.davison@unsw.edu.au</a> , if you have not done so already, and begin discussion, reading, and drafting project proposal on your preferred topic. Access website resources to help guide your project via Moodle. Negotiate allocation of supervising lecturer with course coordinator.
24 July 2017 onwards	Initial <u>compulsory</u> group meeting with your supervising lecturer, followed by the preparation of project proposal
2-3	Independent work/online contact with group members and supervising lecturer
<b>Monday 7 August 2017, 5 pm via Moodle</b>	Submission of the proposal and approval by supervising lecturer
4-6	Independent work/online contact with group members
6	Review group meetings if needed – organised by supervising lecturer
7 – 10	Independent work/online contact group members
Mid-October 2017, onwards	Optional group meeting to share draft work and reports – organised by supervising lecturer
12-13	Independent work/online contact group members
<b>Monday, 6 November , 2017, 5pm via Moodle</b>	Submission of the project report, be assessed by another specialist in the area

## 7. ASSESSMENT

Assessment Task	Length	Weight	Learning Outcomes Assessed	Graduate Attributes Assessed	Due Date
Project proposal	1,000 words	Hurdle requirement	1, 2	1, 2, 3, 4, 6	<b>Monday 7 August 2017, 5 pm via Moodle</b>
Project report	8-10,000 words (excludes references/appendices)	100%	1, 2, 3, 4	1, 2, 3, 4, 5, 6	<b>Monday, 6 Nov, 2017, 5pm via Moodle</b>

### Assessment 1 –Project Proposal

A 1,000-word project proposal, including the aims and rationale of the project, an outline of the proposed approach, including timeline, and expected contribution to the field. Sample proforma below.

### Assessment 2 – Research Report

A 8-10,000 word report of the project, excluding references and appendices, in a form appropriate to the nature of the study. The report should be double-spaced and written in APA style. Please note the criteria for the assessment task. Sample reports from a range of specialisms will be provided online on the course's website. Note that the report of the project will normally be assessed by another specialist in the area, not the supervising lecturer.

All assessments need to be submitted online via Moodle by 5pm. Student no longer need to use a cover sheet. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.
