Summary of Course

This course is designed to inculcate and infuse the student with a theoretical and practical understanding of the current BOSTES Business Studies curriculum, pedagogy and assessment strategies. Complementing this is the need to honour the concept of differentiation, equity, cultural diversity and acknowledging and incorporating various forms of literacy into classroom practices and activities.

Based on last year's student feedback, the following course changes have been made:

- Greater use of ICT, including Moodle for readings and other documents
- More formative feedback both in class and via Turnitin for assignments

Important information

Assessment: Please note that all students must pass all assignments to pass the course, and they must pass the course to go on placement for PE 1.

Attendance: Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, attendance at less than 80% of classes in a course may result in failure.

ASSESSMENT 1: Lesson plan

One full lesson plan (2,000 words equivalent).

S1 Assessment 1

Plan and design one 60-minute lesson for a mixed-ability Stage 5 class. The lesson plan must follow a standard SED format and be presented using the template provided.

Plan your lesson for a class in a comprehensive high school which would typically include EAL/D students, Indigenous students and students with various religious and cultural backgrounds. Some students may have low levels of literacy. Differentiation to cater for some students is therefore required. Appropriate differentiation strategies are scaffolding, group work and/or an alternative task or mode of presentation.

1. Write a rationale for your lesson plan. Your rationale should address the questions: What do I want the students to learn? Why is it important? What strategies will I use? What assessment for learning strategies will I use to monitor progress?
2. Prepare the lesson plan to demonstrate how you will use appropriate structure, activities, strategies and formative assessment to develop understanding of the material.

Make sure you:

- choose an appropriate topic for the year group
- support your rationale using references indicating your professional reading
- choose appropriate outcomes and lesson content
- demonstrate knowledge of effective teaching and learning strategies
- use appropriate format and provide sufficient detail for an effective lesson plan
- include an aspect of literacy/numeracy which integrates with the lesson focus
- provide in full one activity (which may be ICT-based)
- express yourself in clear, standard Australian English.

Assessment Criteria for the written component

- design effective lesson sequences suitable for a variety of Stage 5 students
- plan a logical, sequential, cohesive unit of work
- write with clarity and accuracy of written expression in sufficient detail to show understanding of each activity
- use a variety of drama pedagogies appropriate to the material to be delivered
- show knowledge of the NSW Commerce syllabus and curriculum documents

HURDLE REQUIREMENT

Microteaching is the planning, presentation and evaluation of a lesson over a shortened period of time (a 10-minute mini-lesson). It is a critical aspect of method as it provides students with the opportunity to demonstrate key competencies that must be achieved before student teachers are permitted to undertake Professional Experience 1, at the same time observing other student teachers and engaging in peer review. It is recommended that students read widely on effective classroom strategies and practise aspects of their mini-lesson with a small group of peers prior to assessment.

The assessment process will consist of the following two components:

1. A detailed **lesson plan using the prescribed template**, including a statement of expected learning outcomes
2. A 10-minute mini-lesson

Microteaching Lesson Plan: All students must submit to the method lecturer their proposed lesson plan at least one week prior to the presentation. This will be returned with comments on the suitability of the proposal.

Microteaching: This will be assessed according to the attached criteria and will be graded as **Satisfactory or Unsatisfactory**. Any student whose first micro-teaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.

NOTE: If a student is assessed as unsatisfactory in microteaching s/he will automatically fail Method 1 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.

S1 Assessment 2

Prepare an outline for a unit of work for a Stage 6 Preliminary class. The unit of work should cover the first five lessons; however, you are not preparing full lesson plans.

You must write a rationale for the unit (600-800 words) in which you:

Provide a brief outline of the school and class context

state precisely what you want the students to learn and why it is important

justify your choice of topic/text to suit the needs and abilities of this class

justify your teaching strategies by referring to readings, research and material presented in lectures and the Quality Teaching framework

demonstrate how differentiation will support a diverse range of learners

state the prior knowledge students have to begin this unit and discuss how you would assess and build on this prior knowledge.

Include in your unit outline:

- the learning intentions for each lesson
- one full activity for formative assessment (not an essay)
- one ICT-based activity (not watching a video or PowerPoint presentation)
- one group-work task with a focus on literacy/numeracy (not a mind-map)
- one incursion/excursion/performance/product activity

outlines only for the other teaching materials required.
