Summary of Course

This course aims to provide foundational understandings of the concepts, skills, and issues in music education. Students will critically examine the music curriculum and its implementation in schools. Students will be introduced to the processes of planning individual lessons and sequences of lessons, teaching composing, listening, and performing, using information and communication technology (ICT) and assessing student learning. Learning will be contextualised in knowledge about the nature of music and music education in Australia.

Aims of the Course

This course aims to:

- Develop a firm understanding of the music curriculum
- Develop an understanding of the role of lesson planning
- Develop student knowledge about what constitutes effective classroom teaching in music

The main ways in which the course has changed since last time as a result of student feedback:

We will ensure that lesson plans are covered in more detail and HSC Music 1, 2 and Extension are included in the content. The size of Assessment 2 has been reduced and more explicit demonstration of Stage 4 and 5 teaching techniques have been incorporated in tutorials in Weeks 3, 4 and 6. Topics that may be unfamiliar to students will also be explored.
**Assessment:** Please note that all students must pass all assignments to pass the course, and they must pass the course to go on placement for PE 1.

**Attendance:** Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, attendance at less than 80% of classes in a course may result in failure.

4. **RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH**

In addition to learning some basic skills and concepts in music education, students undertaking this course will think deeply about some of the most critical issues facing music educators. The course is designed with a view to students eventually becoming excellent teachers who are able to continue to improve the quality of music education in Australia. In addition to traditional lectures, the course also involves workshops where students will take part in simulated classroom activities, critical discussions, and reflective observations of music education in practice.

5. **TEACHING STRATEGIES**

- Explicit teaching, including lectures, to demonstrate an understanding of students’ different approaches to learning and the use of a range of teaching strategies to foster interest and support learning.
- Small group cooperative learning to understand the importance of teamwork in an educational context and to demonstrate the use of group structures as appropriate to address teaching and learning goals.
- Extensive opportunities for whole group and small group dialogue and discussion, allowing students the opportunity to demonstrate their capacity to communicate and liaise with the diverse members of an education community, and to demonstrate their knowledge and understanding of method content.
- Online learning from readings on the Moodle website.
- Peer teaching in a simulated classroom setting and classroom teaching in small groups.
- Structured occasions for reflection on learning to allow students to reflect critically on and improve teaching practice.
These activities will occur in a classroom climate that is supportive and inclusive of all learners.

Students are required to follow their lecturer’s instructions when submitting their work for assessment. All assessment will be submitted online via Moodle by 5pm. Student no longer need to use a cover sheet. Students are also required to keep all drafts, original data and other evidence of the authenticity of the work for at least one year after examination. If an assessment is mislaid the student is responsible for providing a further copy. Please see the Student Policies and Procedures for information regarding submission, extensions, special consideration, late penalties and hurdle requirements etc.

**Assessment Details**

**Assessment 1 – Planning and Teaching**

Plan a series of 3 sequenced lessons for Stage 4. The topic will be given to you in class. Try to incorporate a variety of singing, performing, composing, improvising, and listening activities, and demonstrate that most of the lessons use integrated activities.

Use the planning template provided in class. Attach a rationale or explanation of at least 500 words to outline your approach to the lesson plans, why you designed them in the way you did, and why you chose the particular strategies. Develop effective teaching and learning strategies for meeting the needs of Aboriginal, Torres Strait Islanders, English as a second language and language background other than English students, including literacy and numeracy. Be sure to use a wide range of ICT pedagogical approaches and include reference to topics, concepts and readings from the online module: ‘(Re)thinking education: curriculum-pedagogy-assessment’.

**Assessment 2 – Unit of Work for Stage 5.**

You will design a Unit of Work for Stage 5. The Unit of Work must have enough content for a 10 week term with a balance of performance, composition and listening activities. You must include a substantial component addressing the notation literacy requirements for Stage 5, including a score analysis and activities that require students to produce notation.

You must include:
1. A rationale of 500 words that describes how you have put together the activities and how you address the syllabus outcomes.

2. A description of each lesson (50-100 words). Include a column describing evidence of learning for each activity. Include a column referring to attached resources or other internet resources, text books, or special equipment required for the class. Make sure you use a variety of resources and acknowledge all sources if applicable.

3. Attach all visual material, worksheets, and presentations you will use. You do not need to attach audio material on CD or DVD but in the resources column you must refer to specific recordings and, if necessary, timing of excerpts. Do not use YouTube links solely for all aural stimuli.

4. An assessment task near the end of the Unit. Follow the guidelines provided in class for preparing an assessment task.

**Microteaching**

Microteaching is the planning, presentation and evaluation of a lesson. This semester there will be two compulsory sessions for microteaching:

1. Team teaching in a school with a Stage 4 or Stage 5 music class. The lesson topic will be given to you. You will plan either a listening, performance or composition lesson. Class times and groups will be organised in tutorials. Each student must teach a 10-15 minute continuous section of the lesson.

2. An improvised lesson based on a resource or stimulus given by the tutorial leader. Part of the teaching sequence needs to focus on explicit teaching of a literacy/numeracy skill. Students will again work in groups to prepare a lesson plan and presentation will be given to peers.

**Initial Lesson Plan:** All students must submit to the method lecturer their proposed lesson plan at least one week prior to the presentation. This will be returned with comments on the suitability of the proposal.

**Microteaching:** This will be assessed according to the attached criteria, and will be graded as Satisfactory or Unsatisfactory. Any student whose first microteaching episode is judged as unsatisfactory will be given a further (one only) opportunity to gain a satisfactory grade.

**NOTE:** If a student is assessed as unsatisfactory in microteaching s/he will automatically fail Method 1 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.

**A. Teachers know their subject content and how to teach that content to their students (AITSL Standard 2)**

- Was the lesson or unit of work relevant to the needs of the students and based on the appropriate syllabus document requirements? (1.3.1, 2.3.1)
- Was knowledge of relevant concepts, topics and themes demonstrated, including ATSI perspectives? (2.1.1, 2.4.1)
- Were relevant linguistic structures and features and literacy /numeracy knowledge and skills integrated into the lesson? (2.5.1)
- Was a clear and coherent sequence of activities undertaken to engage and support the learning of all students within a class or cohort? (2.2.1, 3.2.1)
- Were the teaching resources and materials suitable for the aims of the lesson? (2.1.1)
- Were tasks required of students modelled and scaffolded? (2.1.1, 3.3.1)

**B. Teachers plan for and implement effective teaching and learning (AITSL Standard 3)**

- Were challenging yet realistic and achievable goals in teaching and learning activities planned? Were these explicitly articulated in the lesson plan/to students? (3.1.1)
- Were instructions, explanations and questioning techniques effective? (3.3.1)
- Were verbal and non-verbal communication strategies used effectively in the classroom to support student understanding of content and encourage participation and engagement of students? (3.5.1)
- Was students’ understanding continually monitored and students’ achievements of the learning outcomes noted? (3.6.1)

**C. Teachers create and maintain supportive and safe learning environments (AITSL Standard 4)**

- Was rapport with the learners established and responsiveness to their needs in the class demonstrated? (4.1.1)
- Were activities well organised and direction clear? (4.2.2)

HURDLE REQUIREMENT

Creating a Contemporary Classroom - Hands on with Digital Technologies

Active participation in 2 x 1.5 hour sessions taken by a specialist in technology enabled learning and teaching to help prepare student teachers to understand and use digital technologies in their contemporary classrooms, and assessed by Method lecturers.

These technologies will include:

Session 1

- Presentation tools and classroom equipment including interactive whiteboards;
- Online sites, tools and communities including blogs, wikis, iTunesU, icourses etc;

Session 2

- Web based enquiry learning resources, including webquests;
- One-to-one technologies including ipads, netbooks and notebooks and the technologies which support shared learning on individual devices; and
- Resources to create contemporary lessons see: Flipped classroom

Resources

TPACK (created by Dr. Matthew Koehler and Dr. Punya Mishra http://www.tpack.org/), Technological Pedagogical Content Knowledge (TPACK) is a framework that identifies the knowledge teachers need to teach effectively with technology.

SAMR (created by Dr. Ruben R. Puentedura): provides a framework to answer the question of what types of technology use would have greater or lesser effects upon student learning.

Rural & Distance Education NSW: A local resource presenting both frameworks, http://rde.nsw.edu.au/tpack-samr

Reflections of pre-service teachers, http://www.ttf.edu.au/psts-talk.html; this series of video clips shows the reflections of several pre-service teachers each of whom trialled one of the twelve Teaching Teachers for the Future (TTF) Australian Curriculum resource packages with a practicum class. At the end of their lesson the pre-service teachers were invited to reflect on the experience of working with the resource package and adapting it to their class situation. They were also asked to reflect on their understanding of TPACK.

Student teachers are encouraged to set up their own blog (It is free) at Edublog , http://edublogs.org/ to create and share resources and lessons they create.
