Summary of Course

This course continues the preparation of students for the teaching of English as an Additional Language or Dialect in secondary schools in NSW. They will continue to develop knowledge and understanding of strategies and EAL/D pedagogy to meet the language needs of EAL/D learners in a secondary school context.

The main ways in which the course has changed since last time as a result of student feedback:

- Allowing more time in tutorials for practical activities relating to lesson planning and assessment

Aims of the Course

This course aims to:

- prepare students for teaching English as an Additional Language or Dialect by developing their knowledge of the Stage 6 English (ESL) syllabus and planning units of work
- develop students' understanding and use of assessment for learning in the EAL/D classroom

Important Information

Assessment: Students must pass ALL assignments in order to pass the course. Only by passing all assignments can the Graduate Attributes (AITSL Professional Graduate Teaching Standards) be achieved.

Attendance: Students are expected to give priority to university study commitments. Unless specific and formal permission has been granted, failure to attend 80% of classes in a course may result in failure.

4. RATIONALE FOR THE INCLUSION OF CONTENT AND TEACHING APPROACH

Students need to understand the NSW Board of Studies English (ESL) syllabus in order to teach it effectively. In addition they need to develop skills in assessment for learning, including backward mapping a unit of work, designed in assessment strategies and feedback to students. They need to develop their EAL/D pedagogical knowledge to create a range of teaching strategies. They are also required to develop their use of ICT as part of their range of strategies to support EAL/D learners and to develop engaging lesson activities. All of this needs to be taught in a practical hands on environment in which students are given explicit modelling and opportunities to work collaboratively in a supportive environment to develop understanding and skills. Students should also feel comfortable to discuss, question and reflect critically on their own teaching experiences.

5. TEACHING STRATEGIES

- Student-centred activities and opportunities for critical and reflective engagement and methodology and philosophy of EAL/D teaching will form the basis of this course.
- Lectures will explicitly teach EAL/D pedagogy and model teaching strategies.
- Opportunities for hands on use of technology and accessing resources online will allow students to become confident users of ICT.
- Online learning from readings on the Moodle website and relevant websites.

HURDLE REQUIREMENT

FEEDBACK AND REPORTING

Assessment is the process of gathering evidence from a variety of sources about learning outcomes and being able to use that information to improve learning and teaching. Evidence includes not only individual student work samples and test results, but also more global data derived from standardized tests (eg NSPLAN, ICAS, HSC etc) as well as more qualitative information generated from student self and peer evaluations, and student-parent conferences.

Feedback is a structured interaction with the student about their current learning: where they are, where they want and /or need to be and how to get there. It may be in oral or written form and may be given by the teacher, by the student's peers or take the form of self-assessment. Feedback needs to indicate learning that has been demonstrated (achieved) as well as what needs more work. For the feedback to also feed forward, comments need to provide students with strategies to guide their improvement. Feedback /reporting to and for parents is also important as they are critical stakeholders and partners in their children's learning.

Moderation is a process used by teachers to compare their judgements about student performance so that assessment is trustworthy. Teachers work together as a group to ensure that the way they use assessment grades is consistent with agreed or published standards. For A to E grades this means the grade a student receives in one school can be fairly compared to the same grade anywhere in NSW. For school-based tasks, it means the work of students in different classes can be assessed using the same success criteria to evaluate progress toward learning outcomes.

View some work samples that teachers in your subject area have aligned to grades A to E at [BOSTES](#) or [ACARA](#) workshops.

It is recommended that students read widely on how to design appropriate assessment tasks, how moderate student samples of work and how to provide effective feedback. Tutorial time will be allocated to discussing this aspect of professional competence and providing experience with the moderation and feedback process.

The assessment process consists of two components.

A collection of five or six authentic student responses to at least two assessment tasks. The responses may be written, visual or oral. The number depends on the length of the response. For each text

- ensure anonymity by removing student names and destroying the samples at the end of the course
- include the instructions that were given for the assessment task and indicate whether the task was intended for formative purposes or summative and formative purposes
- annotate the task to indicate what worked well and what needs changing if it were to be used again
- include the marking scheme/rubric for each task
- provide annotations (with time codes if your sample is audio- or video-based) to indicate what the student has demonstrated as areas of strength and areas that need to be developed further in relation to the task
- include a key for marking symbols
- find out what the general expectation and/or current standards of the school/system are in relation to this subject area/topic/skill by consulting published NAPLAN/HSC/other relevant data, as well as talking to teachers, and consider where this student work is in relation to those overall expectations/standards as well in relation to their previous performance

- provide written feedback for the student which indicates strengths and areas for improvement in relation to this work sample as well as their past performance and overall expectations/standards. Suggest a strategy that will guide the student in his/her learning. (If the task was used summatively you can still use it for formative purposes.)
 - indicate what the implications of your evaluation might be for the teacher in terms of future teaching.
2. Write a few lines that could be included in a mid-year report comment to parents. Provide enough detail to indicate to parents which aspect of the student's performance you are commenting on. Add A, B, C, D or E to align with the advice and work samples provided by BOSTES and ACARA.

NOTES:

The student work samples must be authentic. They should have been collected during Professional Experience 1 during a normal assessment task and/or provided by the method lecturer. Annotated student work samples, notes and all other written evidence of teacher education students' ability to address Standard 5 to be discussed in class and submitted by the due date.

If a student is assessed as Unsatisfactory in the feedback and reporting hurdle requirement, s/he will automatically fail Method 2 overall, and not be permitted to undertake Professional Experience or any further method work in that teaching area until the key concerns have been resolved.
