This Workshop shows how there are well-being factors that are common across teachers and students. Professor Martin identifies key parts of motivation, engagement, and buoyancy that both teachers and students share in the classroom. Understanding these key factors, how they operate in the school, and what to do about them is vital for leaders and school executive seeking to optimize the outcomes of teachers and students in their charge.

**PRESENTERS:**

- **Professor Andrew Martin** - School of Education, UNSW
